Welcome to the Bodhi Restaurant Bar.

Bodhi has been family owned and operated for the last three generations. It was established in 1988 not only with the goal of creating a business that harms no living creatures in its success but as a special place that brings people together through the shared experience of drinking and dining.

Our menu at Bodhi has been designed to focus on this philosophy.

Our cocktails have been created with the aim of using the very best organic herbs, fruits and juices. To maintain the highest quality, the team fresh-press our fruit juices daily and we create our own bespoke syrups. This allows us to ensure our cocktails are of the highest standards.

For those who are intolerant or sensitive to gluten, we have tailored some of our cocktails to be made with gluten free products marked with a Buddha symbol.

In a conscious effort to minimize our carbon foot print on the planet, we try and use every piece of fruit. Turning lemon peels into eco-friendly soap and using the pulp from our freshly squeezed juices into leathers for the garnishes that adorn your cocktails.

Our wines and craft beers have been carefully selected to complement our unique cuisine. We have focused mostly on local Australian wines that are organic, bio-dynamic or ethically and sustainably farmed.

We are a loving and inclusive business that welcomes people from all walks of life with many different beliefs and lifestyle choices. Our role is to provide a beautiful sanctuary and a wide variety of drinking and dining options for those very people.

We hope you enjoy your time with us

For our 30th anniversary at Bodhi we wanted to draw inspiration from history and take your senses on a journey with us across these incredible countries by using some of the flavours and ingredients these regions are famous for.

We wanted to celebrate a journey taken by my family that goes back over 33 generations. We are fortunate that we can trace back our ancestral journey from central Asia all across South East Asia to Sydney where you are reading this today.

As with all families when we gather together, food is always shared and stories are told and retold. History is drawn upon with either hushed solemn tones or loud irrepressible laughter. People argue over small facts and details trying to ensure that an accurate version is told. New details emerge that weren't know before and eyes widen with new knowledge to be stored away for future story telling. Despite hearing some of these stories over and over I never tire of them. There is a wonderful sense of comfort and belonging to a family, a tribe, a shared history.

What we have strived to achieve at Bodhi is to make all that come here feel like family and welcome you into our house.

We hope you will enjoy a journey where east meets west and arrives at Bodhi as it is today.
